

## České Radiokomunikace to purchase nangu.TV

Prague, 11 December 2025– České Radiokomunikace (CRA) is strategically strengthening its position within the market of innovative television broadcasting technology and services for internet television broadcasting and buying nangu.TV, a Czech company that develops comprehensive solutions for IPTV and OTT multimedia platforms.

With the acquisition of nangu.TV, CRA confirms its leading position within the television broadcasting market, expanding its technological platform and portfolio of products focusing on progressive streaming services and IPTV.

*“Our goal is to provide clients complete and comprehensive services in the realm of television broadcasting, whether that entails traditional linear distribution or modern streaming, OTT, and IPTV. We want to have a whole range of options for delivering multimedia content to offer clients. With nangu.TV we are gaining innovative and comprehensive multimedia platform solutions for IPTV and OTT, as well as expert employees,”* says Miloš Mastník, CEO of CRA.

*“Joining CRA is an opportunity for us to further grow and develop in current and new markets. Our solutions perfectly complement the services CRA offers and opens the way to an array of synergies,”* says Zdeněk Gerlický, director of nangu.TV.

*“The acquisition of nangu.TV by CRA confirms our vision and years-long journey in the IPTV sphere towards watching traditional content in a manner enabled by modern technologies,”* states Daniel Kunz, deputy founder and original shareholder. **nangu.TV enables end users to consume content across all modern devices: on smart televisions (Smart TV), set-top boxes, mobile phones and web browsers. Among their largest clients are phone service providers in Czechia and Slovakia who utilize the nangu.TV platform.**

The owner of CRA, Cordiant Digital Infrastructure, also confirms with this purchase its long-term strategy of reinvesting CRA earnings to further develop and strengthen digital infrastructure. At the same time, it is strengthening its

portfolio in the Central European region, as well as its position on the market of television broadcasting services.

**České Radiokomunikace a.s.** (CRA) are leaders in the provision of digital infrastructure. In addition to broadcasting services, the company focuses on connecting the worlds of television, radio, and internet. It operates its own data centres and provides its customers superior computing power. CRA has its own fibre optic networks, and thanks to strong broadcasting infrastructure, it is also able to offer customers wireless solutions or otherwise connect nearby locations via optical fibres.
